INTERNATIONAL JOURNAL OF

CHEMICAL KINETICS

VOLUME 28, 1996

Editor
DAVID M. GOLDEN

Associate Editors
GREGORY P. SMITH
RIPUDAMAN MALHOTRA

Editorial Board

1996

Neville L. Arthur
LaTrobe University (Australia)

Netkal M. M. Gowda
Western Illinois University (USA)

Robert E. Huie
National Institute of Standards and Technology (USA)

Michel J. Rossi
École de Polytechnique Federale de Lausanne (Switzerland)

Timothy Wallington
Ford Motor Company (USA)

Paul H. Wine
Georgia Institute of Technology (USA)

1997

Roger Atkinson
University of California Riverside (USA)

Joseph W. Bozzelli
New Jersey Institute of Technology (USA)

Richard J. Field
University of Montana (USA)

Alan S. Rodgers
Texas A & M University (USA)

Paul Roth
Universität Duisburg (Germany)

Karen E. Wetterhahn
Dartmouth College New Hampshire (USA)

1998

Philippe Dagaut
C.N.R.S., Orleans (France)

Barbara Finlayson-Pitts
University of California Irvine (USA)

M. Niyaz Khan
Universiti Malaya (Malaysia)

H. Matsui
University of Tokyo (Japan)

J. V. Michael
Argonne National Laboratory Illinois (USA)

C. F. Wells
University of Birmingham (U.K.)

Sidney W. Benson, Editor Emeritus, University of Southern California (USA)

The *International Journal of Chemical Kinetics* (ISSN: 0538–8066) is published monthly, one volume per year, by John Wiley & Sons, Inc., 605 Third Avenue, New York, NY 10158.

Copyright ©1996 John Wiley & Sons, Inc. All rights reserved. No part of this publication may be reproduced in any form or by any means, except as permitted under Sections 107 or 108 of the 1976 United States Copyright Act, without either the prior written permission of the publisher, or authorization through the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923; (508) 750-8400; fax (508) 750-4470. Periodicals postage paid at New York, NY, and at additional mailing offices.

The code and copyright notice appearing at the bottom of the first page of an article in this journal indicate the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal use of specific clients, on the condition that the copier pay for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Such permission requests and other permission inquiries should be addressed to the Permissions Dept.

Subscription price (Volume 28, 1996): $1,368.00 in US, $1,488.00 in Canada and Mexico, $1,554.00 outside North America. All subscriptions outside US will be sent by air. Payment must be made in US dollars drawn on a US bank. Claims for undelivered copies will be accepted only after the following issue has been received. Please enclose a copy of the mailing label. Missing copies will be supplied when losses have been sustained in transit and where reserve stock permits. Please allow four weeks for processing a change of address. For subscription inquiries, please call (212) 850-6645 or e-mail: SUBINFO@wiley.com

Postmaster: Send address changes to *International Journal of Chemical Kinetics*, Susan Malawski, Director, Subscription Fulfillment and Distribution, Subscription Department, John Wiley & Sons, Inc., 605 Third Avenue, New York, NY 10158.

Advertising Sales: Inquiries concerning advertising should be forwarded to Susan Levey, Advertising Sales, John Wiley & Sons, 605 Third Avenue, New York, NY 10158. Tel: (212) 850-8832. Advertising Sales, European Contact: Michael Levermore, Advertising Sales Manager, John Wiley & Sons, Ltd., Baffins Lane, Chichester, Sussex PO19 1UD, England.

Reprints: Reprint sales and inquiries should be directed to the customer service department, John Wiley & Sons, Inc., 605 Third Ave., New York, NY 10158. Tel: (212) 850-8776.

The contents of this journal are indexed in the following: *Biological Abstracts, BIOSIS, Chemical Abstracts, Chemical Titles, Current Contents/Physical, Chemical and Earth Sciences, Engineering Index, Research Alert (ISI), Science Citation Index (ISI)*, and *SCISEARCH Database (ISI)*.

Other correspondence: Address all other correspondence to: International Journal of Chemical Kinetics, Publisher, Interscience Division, Professional, Reference, and Trade Group, John Wiley & Sons, Inc., 605 Third Avenue, New York, NY 10158.

Manuscripts should be submitted to the Editor, Dr. David M. Golden, Department of Chemical Kinetics, SRI International, 333 Ravenswood Avenue, Menlo Park, California 94025. Information for contributors appears in the first and last issue of each volume.

Editorial Production, John Wiley: Alyson Linefsky

⊖ This paper meets the requirements of ANSI/NISO Z39.48-1992 (Permanence of Paper).

Thymine, Oxidation, 713
TI(III) Acetate, 657
Toluene, Atmospheric Oxidation Mechanism, 315
2,2,2-Trifluoroethyl Amine, Reaction with OH, 807
Uracil, Oxidation, 713
V(V) Catalyst, 673
Vilsmeier-Haack Reagent, 865
